GENERAL MARKET REPORT.

the ground that the coming crop was promising less taweakly owing to the need of moisture. Otherwise there
was little of encouragement in the news. Being a holiday
la Brazil on Wednesday, there were no cables from the
primary markets, and the European markets reported
little change. Hamburg opened a pig higher, but lost
the gain, while Harve, after reporting a decline of about
a frame, recovered the loss. The stock of coffee at Havre
is reported as 2.12,000 bags of all kinds, against 2.233,000
at the same time last mouth, or a decrease of about
lings long for the month, it is estimated that the
world's warehouse deliveries for the month of October
may reach 1.00,000 bags, but it is still eay ected that the
world's visible supply statement for November, when
available will show an increase considerably in excess
of that during October last year. The market for spot
angle was steady, with quotations on the basis of \$\frac{1}{2} \operatorname{\text{dist}} \text{ for Fig No 7.}
